ABOUT MEDEX

A PIONEER OF APITHERAPY

Medex is a pioneer in apitherapy and incredibly passionate to improve people's lives **with innovative food supplements based on bee products**. We are constantly **pushing the frontier of apitherapy** with a clear mission **to upgrade the traditional use** of bee products **with clinically supported innovations** to solve medical challenges of our times.

THE BEE-CENTRIC COMPANY

Bees are our inspiration, they fascinate us, they are beautiful, and **their importance to mankind is beyond measure**. Every third spoonful of food is dependent on bees and pollinations. **Respecting bees** and understanding their importance for the environment **also improves our lives**.

NATURAL & QUALITY PRODUCTS

Our products reveal **the secrets** of hard work of **bees** into a pure **miracle of nature**. They are made to the **highest quality standards, while having everyone's health and well-being** in mind – from children, working population to the elderly. **By combining beehives treasures** and other **natural ingredients** we **level up immune system & overall well-being of the people**.

BEE – SUSTAINABLE COMPANY

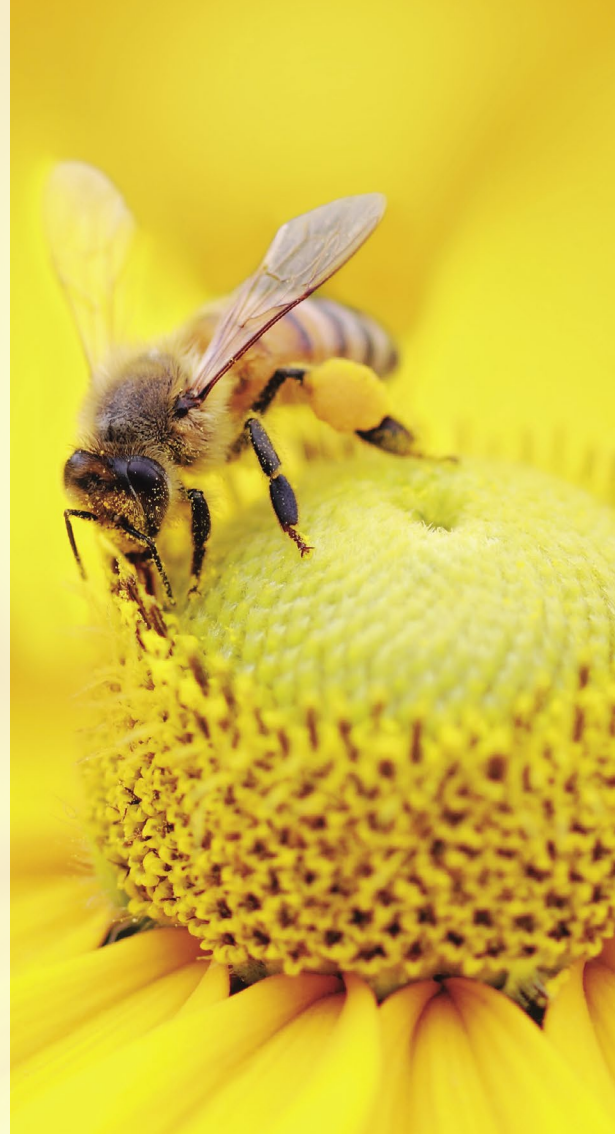

As a partner in the project **“Development of beekeeping in Ghana”** our common goal is to create new jobs, reduce poverty, and strengthen rural development. With this project, we are fulfilling **our sustainable mission**, which also means **a better and friendlier world for all**.

WHERE TRADITION MEETS MODERN SCIENCE

We have been building **a bond of respect and trust** since 1954 with the innovation, tradition, quality, and safety of our products. One of our main goals is an **open and honest relationship** not only with our consumers, but also with the wider environment in which we operate.

FIRST AMBASSADOR OF THE WORLD BEE DAY

The initiative of **the World Bee Day** came from our mother land – **Slovenia**, where people are very aware of **bee's incredible mission**, so **beekeeping** has strong **roots in Slovenian tradition and our company**. We have always been **the driving force** behind the development and knowledge spreading in **the field of beekeeping all around the world**.

HONEY-BASED SYRUPS RANGE FROM MEDEX

All generations are already familiar with the beneficial effects of **honey**. Combining them with **natural herbal extracts** in **syrups** is just the perfect upgrade! What is more, the **honey** works as a **natural preservative**! Honey also ensures **perfect taste** so the saying "The bitterer it is, the more it helps" no longer applies! With Medex, the health has the best taste!

Medex ensures **tracking, testing**
& **quality control** of its honey!

RAW HONEY SOOTHING ENERGY & EFFECTIVE ANTISEPTIC

One of the most nourishing foods on the planet - the raw honey delivers an energizing source of fuel for the body. On the other hand, it also helps with the production of calming serotonin and melatonin in the brain, making it great for catching dreams.

RAW HONEY FACTS

- ✓ It is a kind of **super food for bees** – it is the only food they can survive with!
- ✓ Honey consists of **80% sugars** and **20% water**.
- ✓ To make 1 kg of honey, the bees in the colony must visit **4 million flowers**, fly over **88,000 km** and it will be the lifetime work of approximately **768 bees**.
- ✓ A **single honeybee** will only produce **1/12 teaspoon of honey** in her lifetime.
- ✓ A **single honeybee** will visit **50-100 flowers** on a **single trip** out of the hive.
- ✓ Honey is the only food source **produced by** an insect that **humans eat**.

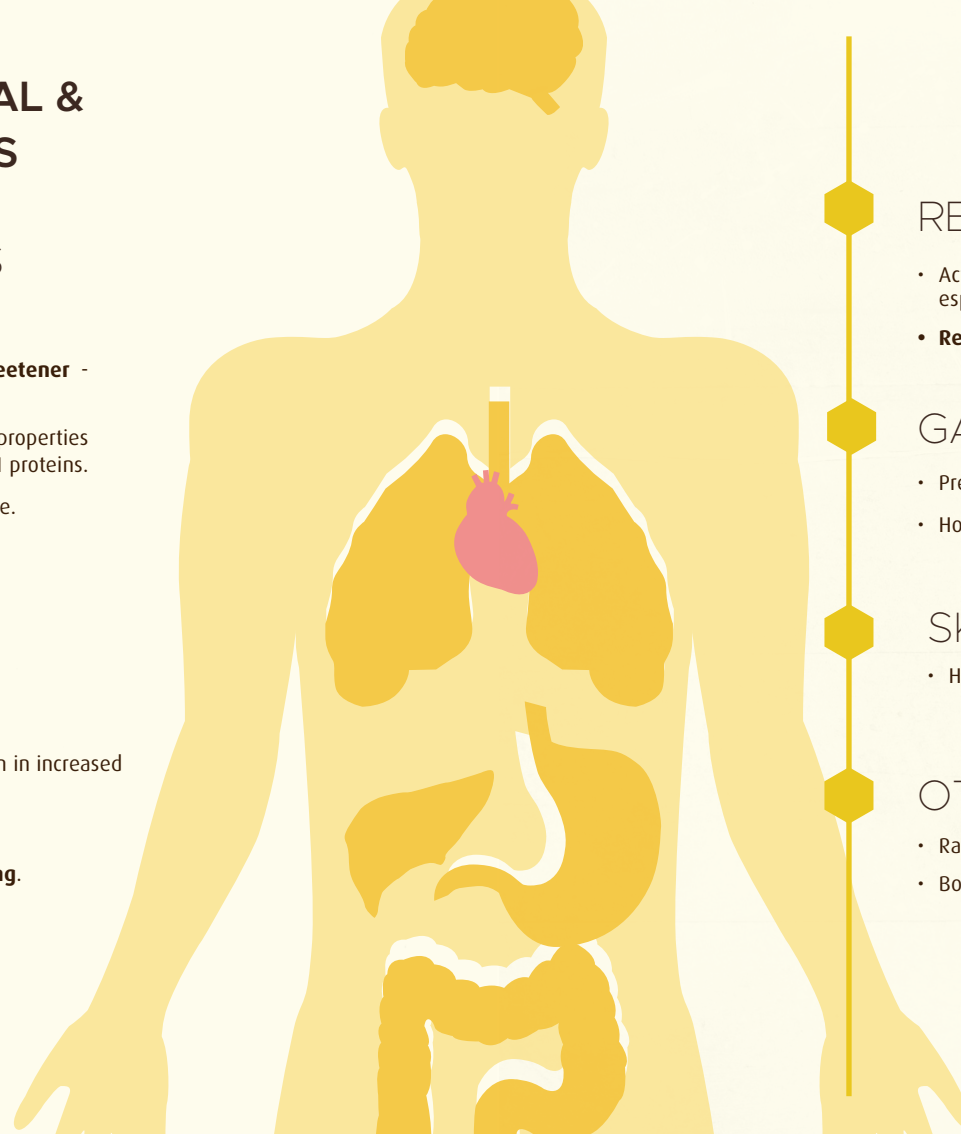

HONEY - POTENTIAL & CLAIMED BENEFITS

GENERAL BENEFITS FOR HUMANS

- Unlike sugar, honey is a **healthier sweetener** - contains traces of vitamins and minerals.
- **Fighting infections** since it contains properties such as hydrogen peroxide and defensin-1 proteins.
- Honey may help fight metabolic syndrome.

BLOOD, BLOOD PRESSURE

- Honey can **lower triglycerides**, which can in increased amount lead to heart diseases.
- Helps **improve cholesterol level**.
- Honey may help prevent **artery hardening**.

RESPIRATORY SYSTEM

- Acts as a natural and safe **cough suppressant**, especially for children.
- **Relieving cold and cough** symptoms.

GASTRO

- Preventing **acid reflux**
- Honey may help support a **healthy gut**.

SKIN

- Helps heal **burns and wounds**.

OTHER

- Raw honey may help alleviate your **allergies**.
- Boosts the staying power of **endurance** athletes.

spruce tips

syrup with spruce tips, honey and vitamins A and C

Vitamin A contributes to the maintenance of normal mucous membranes.

Vitamin A and **vitamin C** contribute to the normal function of the immune system.

Content: honey, concentrated pear juice, spruce tips extract, thyme, peppermint extract, vitamin C, vitamin A, eucalyptus oil. **Recommended for:** adults and children over 3 years old. **Use:** The recommended daily dose is 30 ml for adults (1 tablespoon three times per day) and 10 ml for children (1 teaspoon twice per day). **Packaging:** 150 ml

BetaGlucan junior

honey syrup with patented beta glucans Wellmune®, vitamins and minerals

Vitamin C, vitamin D and zinc contribute to the normal function of the immune system.

Vitamin C contributes to the reduction of tiredness and fatigue. Zinc contributes to normal cognitive function.

Wellmune® is one of the most widely researched beta-glucans, and its efficiency is also supported by several clinical studies.

Content: honey, water, concentrated pear juice, oligofructose, concentrated acerola juice powder (Malpighia glabra, maltodextrin) - a natural source of vitamin C, Wellmune® baker's yeast beta-glucan powder, vitamin C (calcium L-ascorbate), zinc gluconate, vitamin D (cholecalciferol), antioxidant: alpha tocopherol, natural flavours, acid: citric acid.

Recommended for: The syrup is intended for children from the age of 1 year old.

Use: We recommend that you consume the syrup on an empty stomach. The best option is to take it in the morning, at least half an hour before a meal, or in the evening, before going to bed. In order to boost the immune system, we recommend a long-term consumption of at least 30 days. You can take the product continuously, for a longer period of time. In the event of an increased need, you can double the dose.

What are beta-glucans?

Beta-glucans are natural complex polysaccharides naturally occurring in the cell walls of bacteria, fungi, and algae. They are one of the main structures that our body recognises as a foreign body. When encountered by beta-glucans, our body activates the innate immune response to quickly neutralise a potential microbiological threat. The Wellmune® beta-glucans are obtained from the cell walls of baker's yeast and are highly purified and branched, which results in their great efficiency. Their effectiveness was proven with several clinical studies.

IMMUNITY

sage and Iceland moss

sage, Iceland moss and vitamins in agave syrup

Vitamin A contributes to the maintenance of normal mucous membranes.

Vitamin A and vitamin C contribute to the normal function of the immune system.

Content: agave syrup*, water, Iceland moss extract, sage extract (contains lactose), fructose, peppermint extract, acerola extract (natural vitamin C), natural flavours, vitamin A, preservative potassium sorbate. *From certified organic agave.

Recommended for: adults and children over 3 years old

Use: The recommended daily allowance is 30 ml for adults (2 teaspoons three times per day) and 15 ml for children (1 teaspoon three times per day).
