PROPOLIS COMES
FROM GREEK
MEANING TO
DEFEND A CITY

medex
propolis

NATURAL ANTIBIOTIC & DISINFECTANT

ABOUT MEDEX

A PIONEER OF APITHERAPY

Medex is a pioneer in apitherapy and incredibly passionate to improve people's lives **with innovative food supplements based on bee products**. We are constantly **pushing the frontier of apitherapy** with a clear mission **to upgrade the traditional use** of bee products **with clinically supported innovations** to solve medical challenges of our times.

THE BEE-CENTRIC COMPANY

Bees are our inspiration, they fascinate us, they are beautiful, and **their importance to mankind is beyond measure**. Every third spoonful of food is dependent on bees and pollinations. **Respecting bees** and understanding their importance for the environment **also improves our lives**.

NATURAL & QUALITY PRODUCTS

Our products reveal **the secrets** of hard work of **bees** into a pure **miracle of nature**. They are made to the **highest quality standards, while having everyone's health and well-being** in mind – from children, working population to the elderly. **By combining beehives treasures** and other **natural ingredients** we **level up immune system & overall well-being of the people**.

BEE – SUSTAINABLE COMPANY

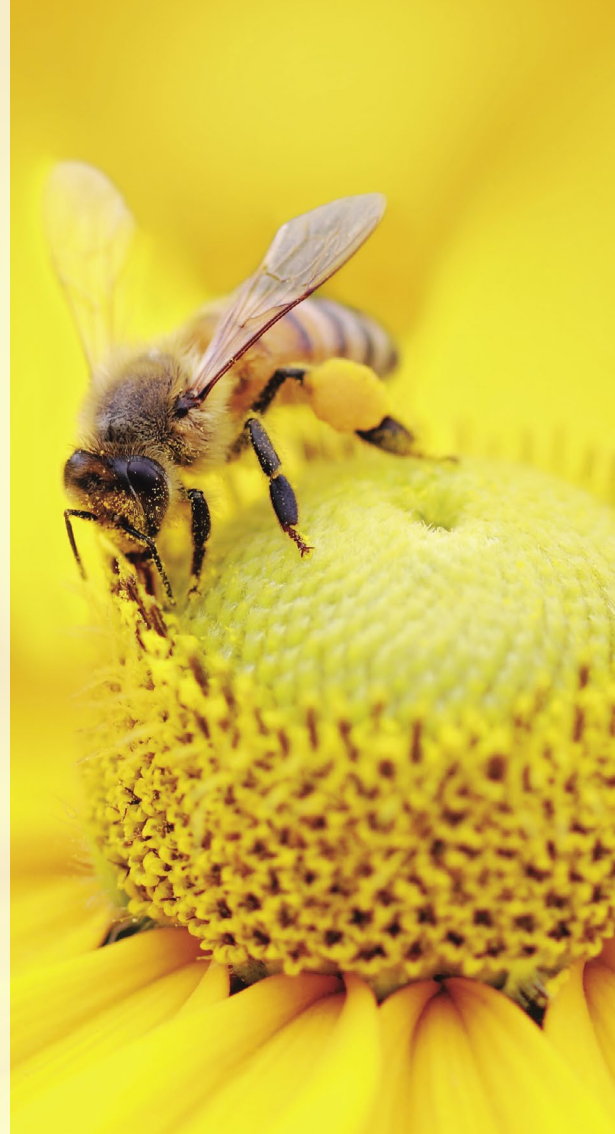

As a partner in the project **“Development of beekeeping in Ghana”** our common goal is to create new jobs, reduce poverty, and strengthen rural development. With this project, we are fulfilling **our sustainable mission**, which also means **a better and friendlier world for all**.

WHERE TRADITION MEETS MODERN SCIENCE

We have been building **a bond of respect and trust** since 1954 with the innovation, tradition, quality, and safety of our products. One of our main goals is an **open and honest relationship** not only with our consumers, but also with the wider environment in which we operate.

FIRST AMBASSADOR OF THE WORLD BEE DAY

The initiative of **the World Bee Day** came from our mother land – **Slovenia**, where people are very aware of **bee's incredible mission**, so **beekeeping** has strong **roots in Slovenian tradition and our company**. We have always been **the driving force** behind the development and knowledge spreading in **the field of beekeeping all around the world**.

BEE PROPOLIS NATURAL ANTIBIOTIC & DISINFECTANT

The word propolis comes from the Greek *pro polis* – meaning to defend a city. Propolis is definitely a beehive defender with 300+ beneficial compounds. Bees use it to line the walls of their hives to keep the germs out. We use it to support our immune systems, soothe scratchy throats, and combat free radical damage in the body.

BIOFLAVONOIDS

BIOFLAVONOIDS – THE MOST IMPORTANT CONTENT OF PROPOLIS

The main active substances in propolis are bioflavonoids, natural plant-based compounds that protect plants against microorganisms.

The content of bioflavonoids determines the quality of propolis, which is why we standardised its value in Medex products, thus ensuring their consistent quality.

The word propolis comes from Greek *pro polis* – meaning to defend a city. Propolis is definitely a beehive defender.

BEE PROPOLIS FACTS

- Bees use the **propolis**, the **beehive defender**, to **protect** the beehive **from unwanted microorganisms** as well as to **seal the hive where needed**.
- It is a mix of bees' **saliva and beeswax** along with **compounds** from various **plants and trees**.
- Scientists have identified more than **300 separate compounds**.
- In the beehive it act as an **antibacterial, antifungal, antiviral, antiprotozoal and anti-inflammatory agent**.

At Medex we have a wide portfolio of propolis products made in both **dry and liquid form**. On top of that, it has a **standardized content of bioflavonoids**, the most important substance of propolis.

APF: ACTIVE PROPOLIS FLAVONOIDS

Active Propolis Flavonoids is a standardised scheme developed by Medex and implemented in our own laboratories with recognised analysis methods. It shows the flavonoid concentration in the liquid propolis product.

5
APF®

min. bioflavonoids 5 mg/ml

We guarantee that a minimum of 5 mg of bioflavonoids is contained in one milliliter of solution.

30
APF®

min. bioflavonoids 30 mg/ml

We guarantee that a minimum of 30 mg of bioflavonoids is contained in one milliliter of solution.

BEE PROPOLIS

A CLINICAL STUDY

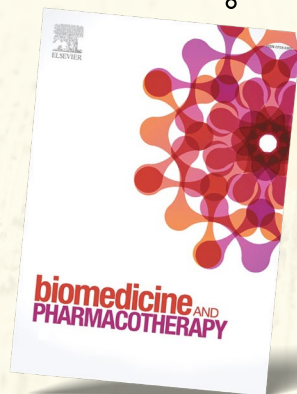

- A new clinical study published in Biomedicine & Pharmacotherapy magazine concludes that **400-800 mg of standardized propolis²** a day **halves the hospitalization time**.
- What is more it **may eliminate** also some **COVID complications**.

FACTS ABOUT CLINICAL STUDY:

- ✓ **124 patients** in 3 groups
- ✓ **40 patients** got 400mg propolis/day
- ✓ **42 patients** got 800mg propolis/day
- ✓ **42 patients** as a control group

¹ Efficacy of Brazilian green propolis (EPP-AF®) as an adjunct treatment for hospitalized COVID-19 patients: A randomized, controlled clinical trial, 2021.

² Green propolis

At Medex we have a wide portfolio of propolis products made in both **dry and liquid form**.

PROPOLIS - POTENTIAL & CLAIMED BENEFITS

MOUTH & TEETH HEALTH

- Heals **cold sores**.
- Calms and heals a **sore throat**.
- **Cavity control** - helps inhibit the growth of Streptococcus mutans and other bacteria that cause cavity gingivitis.
- Keeps the **mouth mucosa** healthy, prevents and heal sores and other fungal diseases.

SKIN

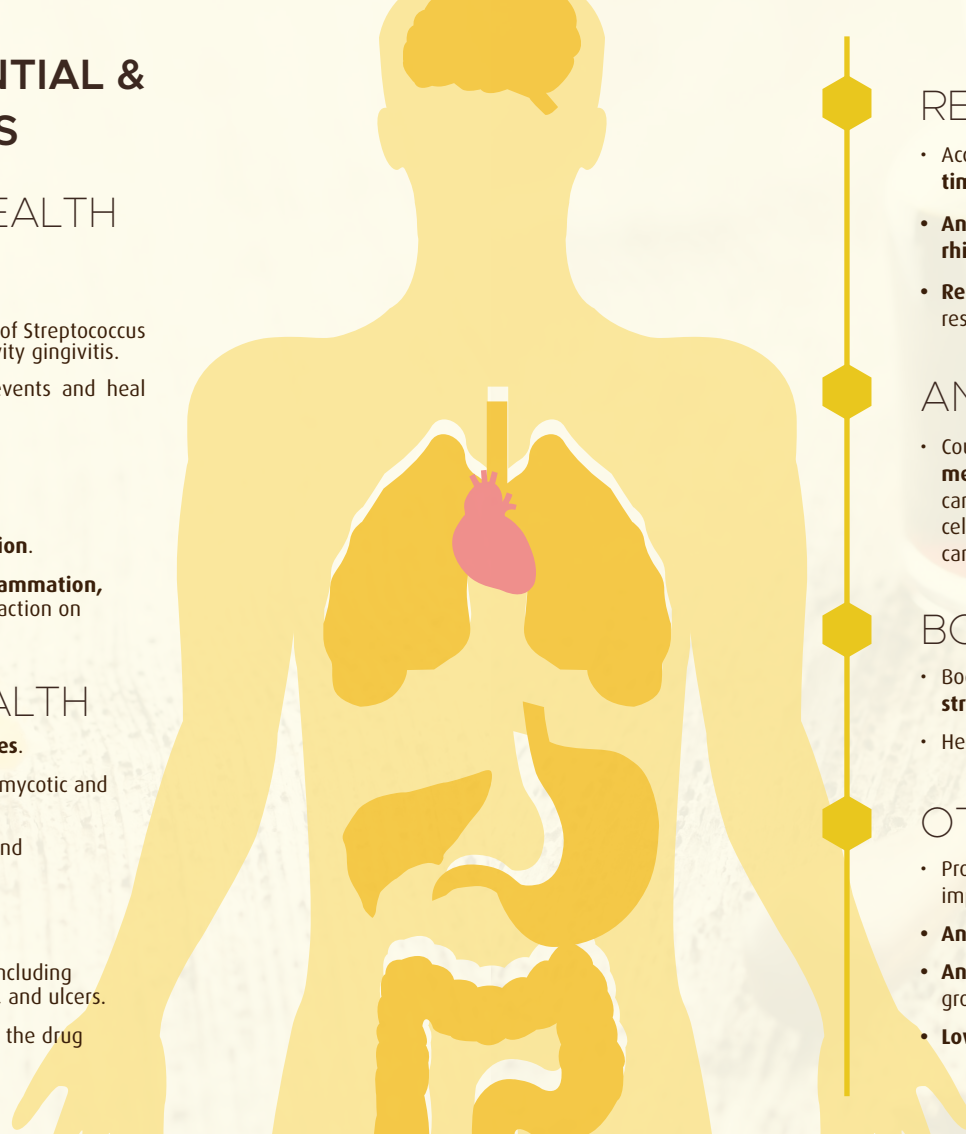

- Healing minor **burns** and **wounds**.
- Healing **acne** and **other skin inflammation**.
- General skin care - **antiallergy, anti-inflammation, antimicrobial** properties and promotive action on collagen synthesis.

MEN & WOMEN HEALTH

- Helps treat sores related to **genital herpes**.
- Heals **vaginal infections** (antibiotic, antimycotic and anesthetic action).
- Beneficial in healing **female infertility** and **endometriosis**.

GASTRO

- Helps treat **gastrointestinal disorders**, including ulcerative colitis, gastrointestinal cancers, and ulcers.
- May heal **giardiasis** in more people than the drug tinidazole!

RESPIRATORY SYSTEM

- According to a recent study, **halves the hospitalization time of COVID patients**.
- **Antiviral activity** against other types of virus - **rhinoviruses, influenza (flu), respiratory syncytial virus**.
- **Reduces the duration** of common colds and other upper respiratory tract infections.

ANTI-CANCEROUS EFFECTS

- Could be a **complementary therapy to conventional methods for cancer** - e.g. breast cancer - keeps cancerous cells from multiplying, reduces the likelihood cells will become cancerous, blocks pathways that keep cancer cells from signalling to each other).

BONES & MUSCLES

- Boost bone health and help **heal fractures** by **strengthening bone density**.
- Helps heal rheumatoid arthritis.

OTHER

- Propolis may **lower high blood sugar** levels and improve blood sugar control in type 2 diabetes.
- **Anti-allergy** effect in the body.
- **Antifungal** - fights yeast infections by blocking the growth of yeast and fungus.
- **Lowers** cholesterol.

propolis defense NEW

The strongest water-based propolis on the market.

30
APF®

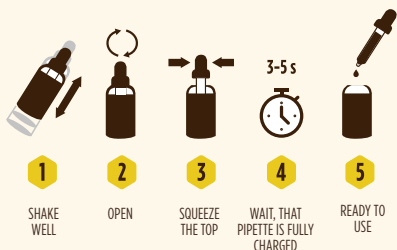

min. bioflavonoids 30 mg/ml

We guarantee that a minimum of 30 mg of bioflavonoids is contained in one milliliter of solution.

Ingredients: emulsifier: vegetable glycerine, liquid propolis extract (purified propolis, water, fructose, maltodextrin, sucrose, gum arabic, natural colour: caramel), purified water.

Instructions for use: The recommended daily dose for adults and young people (+12) is 0.75 ml, 2-times a day. Dose it in your preferred liquid or pour it on a spoonful of honey and consume. Add 0.75 ml of propolis solution in approximately 20 ml of water for oral use 2-times a day, rinse your mouth for half a minute and then swallow or spit out.
